Electrical installations in buildings.

We plan, design and implement a wide variety of electrical installation projects.

Our core competencies include installations of every type, up to and including execution, maintenance and service. We create tailored, sustainable, state-of-the-art solutions for you. You can depend on the reliability of these installations in the long term.

We guarantee the expert, timely execution of your projects in compliance with legal requirements. This means that you can concentrate on your core business. Our team will take care of the smooth implementation of your projects.

Our range of services for installation and service.

Classic high-current, low-current and ICT installations in data centres and technical buildings, as well as in commercial, service and industrial buildings, are all part of our portfolio. We will be happy to advise you on the analysis of existing systems and also with new projects. The installation of complete systems requires detailed clarification and precisely executed preliminary work. We will be happy to undertake that for you.

competent, engaged, reliable.

Your advantages at a glance.

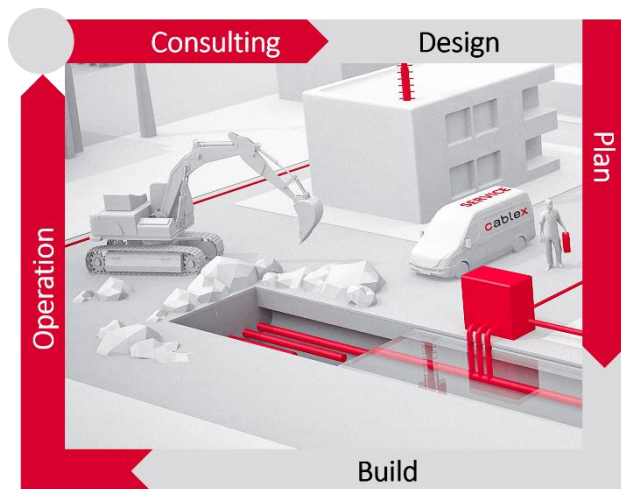

- an experienced partner with impressive references
- professional, highly trained specialist contacts
- technical expertise according to ESTI, with installation and supervisory approval
- nationwide, but also locally embedded
- tried and tested processes, certified according to ISO 9001 and 14001

Services that are advantageous for you.

Your projects are in good hands with us.

Our teams of specialist experts will plan your projects in a solution-oriented, cost-conscious manner, adapted to meet your needs. Our electrical installation teams are on hand to help you every day. Our work is focused on securing your satisfaction and on the prompt, high-quality implementation of your project.

What we do.

We advise customers on the finding, planning and implementation of solutions.

In this context cablex concentrates on the execution of the work on site.

You benefit from our many years of experience in the professional implementation of infrastructure projects.

Our services at a glance.

- High-current and low-current electrical installations
- Communications installations (copper and Fox)
- Optical fibre and LAN cabling in data centres
- Building technology cabling for HVAC
- Building automation (KNX, Easy-Master)
- Installation of fire protection/prevention and access systems
- Nationwide service and maintenance for all installations

References.

The success and satisfaction of our customers is our primary concern. We would be happy to present references and success stories to you in person, which will convince you that we can successfully implement your project too.

We love challenges and we put our heart and soul into finding the best solution.

Our values, your benefit.

Trustworthy, committed, curious, passionate.

You can always rely on the experience of our employees. Using smart processes and the latest technologies, we can respond quickly to your individual requirements. This ensures uninterrupted processes and target-oriented project delivery. cablex maintains a well-established network with well-known suppliers and partners. In this way you benefit from innovative overall solutions from a single source.

More reasons why cablex is exactly the right partner for you.

- Quality: our employees attend training courses on an ongoing basis and continue their education so that they are always at the cutting edge of the technology.
- Scalability: over 2,500 employees work at cablex and we also implement large-scale projects within the time, cost and quality targets.
- Everything from a single source: we specialise in the construction, maintenance and operation of high-performance ICT and network infrastructure solutions.
- Flexibility: cablex offers you a variety of different solutions, which can be adapted to your needs and provide you with the greatest possible flexibility.
- Solution-oriented approach: cablex takes practical action and is committed to a simple, functional solution with maximum customer benefit.
